<u>III.A. & B. Tuition and Fees</u>
<u>III.C. Enrollment</u>
<u>IV. Tax Increases Averted</u>
<u>V. Jobs Saved or Created</u>
<u>VI. Progress in Advancing Education Reform</u>
<u>Certification of review of submission</u>

I.A. Distribution of Education Stabilization funds to local educational agencies (LEAs)

Distribution of Education Stabilization funds (CFDA No. 84.394) to local educational agencies (LEAs):

Total amount of Education Stabilization funds made available to LEAs for obligation from October 1, 2010 through September 30, 2011 (Funds Made Available): **\$60,026,609.00**

Provide a list of the LEAs in the state and the total amount of Education Stabilization funds made available to them for obligation from October 1, 2010 to September 30, 2011:

LEA Name	NCES ID	Funds Made Available (2010) \$	Funds Made Available \$

II.A. Uses of Education Stabilization funds by LEAs

Provide a concise narrative of how LEAs in your state have generally used Education Stabilization funds, and the impact that the funds had on elementary and secondary education in your State from October 1, 2010 to September 30, 2011:

Entry from previous timeframe:

No ESF dollars have been awarded to LEAs in Colorado.

Please update for the new timeframe:

Colorado LEA's generally used Education Stabilization funding for salary and benefit expenditures. The Education Stabilization funds funded approximately 1,675 full time equivalent salaries and benefits. Education Stabilization funds had a tremendous impact on LEA operations and allowed recipients to create or save positions critical to the learning and achievement of Colorado students.

Estimate the total amount of Education Stabilization funds draw downs that the State made on behalf of LEAs, from October 1, 2010 to September 30, 2011, under the following categories:

Salaries and benefits:	\$60,026,609.00
Contracts for construction, modernization, renovation, or repair projects:	\$0.00
Other:	\$0.00
Total:	\$60,026,609.00

II.B. Uses of Education Stabilization funds by public IHEs

Provide a concise narrative of how public IHEs in your State have generally used Education Stabilization funds, and the impact that the funds have had on postsecondary education in your State from October 1, 2010 to September 30, 2011:

Entry from previous timeframe:

As of September 30, 2010, Colorado had allocated Education Stabilization Funds (ESF) exclusively to public Institutes of Higher Education. ESF funds were used to back-fill a reduction in State's General Fund contribution, which was a result of reduced State revenue - incurred because of the economic recession. By applying ESF funds to IHEs, Colorado was able to fully restore higher education funding for FY 2008-09 and 2009-10 back to the FY 2007-08 level. IHEs primarily used ESF dollars to fund teacher and faculty salaries. A small portion of the funding was used for student aide and for payments to vendors. The availability of ESF funds helped Colorado public IHEs to retain valuable staff and mitigated the need to raise student tuition.

Please update for the new timeframe:

In FY 2010-11, Colorado Institutions of Higher Education continued to use SFSF Education Stabilization funds to support teacher salaries and benefits. Like in FY 2009-10 the availability of ESF funds helped schools balance their budgets and mitigated the increase of tuition.

Estimate the total amount of Education Stabilization funds draw downs that the State made on behalf of public IHEs, from October 1, 2010 to September 30, 2011, under the following categories:

Salaries and benefits:	\$29,167,486.00
Student financial assistance:	\$0.00
Contracts for modernization, renovation, or repair projects:	\$0.00
Other:	\$0.00
Total:	\$29,167,486.00

II.C. Uses of Government Services funds by entities

Provide a concise narrative of how entities in your State (including State agencies) have generally used Government Services funds, and how the funds have affected the State's provision of services from October 1, 2010 to September 30, 2011:

Entry from previous timeframe:

The Government Services funds have primarily been used to back-fill budgetary obligations from the State General Fund, which were unable to be fulfilled due to decreased state revenue as a result of the economic recession. This includes vital funding to state agencies such as the Colorado Department of Corrections, who used \$113 million of GSF funding to pay for prison guard and other DOC salaries. GSF funds were also applied to other important state agency projects and programs, which had been approved by the state legislature, but which had not yet received appropriation. For example, the Colorado Department of Human Services was able to apply \$5 million to improve safety and living standards at state mental health hospitals. Finally, the Governor's Office selected programs which offered long-term economic improvements or educational opportunities for Colorado's students. Examples would include a \$6.6 million GSF allocation to the Colorado Dept of Education to progress initiatives that advance the 4 reform areas and a \$2 mil grant to the Colorado Renewable Energy Authority to make CO a more competitive climate for energy research and production.

Please update for the new timeframe:

In addition to the GSF dollars that were awarded to support vital state services, in FY 2010-11 several additional awards were distributed to support economic development and government efficiency projects. The largest economic development award went to the Colorado Office of Economic Development and International Trade to support the roll out of a statewide economic development plan. To improve government efficiency, an award was granted to support a state government-wide Lean efficiency project. A grant was also awarded to improve the state's online Medicaid distribution system. Smaller awards included a grant to fund Americorp teacher salaries, funding an Eastern Plains economic development event and a grant to clean up a forest fire in Boulder County. Like the previous year, FY 2010-11 GSF dollars have helped to support important policy priorities which would have otherwise required cutting funds from other programs or would have been put in a moratorium until more revenue was available.

Estimate the total amount of Government Services funds that the State has drawn down on behalf of its subrecipients, from October 1, 2010 to September 30, 2011, under the following categories:

Elementary and secondary education (excluding construction, modernization, renovation, or repair of public school facilities):	\$6,095,584.06
Construction, modernization, renovation, or repair of public school facilities:	\$0.00
Modernization, renovation, or repair of public IHE facilities:	\$0.00
Public IHEs (excluding modernization, renovation, or repair of public IHE facilities):	\$0.00
Public safety:	\$0.00
Public assistance:	\$0.00
Transportation:	\$0.00
Other:	\$5,120,686.16
Total:	\$11,216,270.22

III.A. & B. Tuition and Fees

Describe any actions taken by the State to limit increases in tuition and fees imposed by public IHEs for in-State students:

Entry from previous timeframe:

From FY 2009 through FY 2011 during the economic downturn, Colorado utilized Recovery Act (ARRA) funding to sustain funding levels for public higher education institutions. Because funding levels were sustained during those years, increases in tuition and fees could be limited even as state revenues were falling and enrollment was increasing. Because of ARRA funding, the Colorado Governor and General Assembly chose to continue existing limits on in-state undergraduate tuition increases to a maximum of a 9% over the previous year as approved by the General Assembly. The institutions adhered to those limitations during the ARRA funding period. Recently, additional state budget balancing has required significant reductions in state funding for higher education. To prepare for these reductions, during the last legislative session the Colorado General Assembly passed Senate Bill 10-003 (SB 10-003). For a five year period beginning in FY 2012, SB 10-003 grants Colorado public institutions of higher education the ability to raise in-state tuition above 9% pending the approval of a Financial Accountability Plan. In the Financial Accountability Plan, institutions outline specific strategies to provide protections for low and middle income students and underserved populations such as utilizing new tuition revenue for additional institutional financial aid and scholarships. Reduced state revenues and the need to annually balance the state budget make tuition increases inevitable in the current financial climate. Colorado intentionally utilized ARRA funds to stabilize and sustain higher education funding and keep tuition increases low during the period those funds were available. With the end of the ARRA funds, and through the passage of SB 10-003, Colorado has created greater flexibility for public higher education institutions to set tuition at the level needed to sustain operations while protecting access and affordability for Colorado's low and middle income and underrepresented students.

Please update for the new timeframe:

Please note that the FY 2009-10 APR response applies to FY 2010-11 as well.

For each 2- or 4-year public IHE, please provide the tuition and mandatory fee amounts for in-State students for school years 2008-2009, 2009-2010, and 2010-2011:

Data should be provided for all four-year and two-year public IHEs. Private IHEs should not be included.

IV. Tax Increases Averted

Estimate the degree to which State tax increases were averted because of the availability of SFSF funds.

Entry from previous timeframe:

The Colorado Constitution prohibits tax increases without a vote of the people. Executive or legislative action to implement a tax increase was not, and is not, an option. If the state had not received SFSF funds there would have been dollar for dollar expenditure reductions in the state budget. Ninety seven percent of the state's general fund budget is dedicated to k-12 education, health care, human services, higher education and law and order. Additional cuts would have come from those areas.

Please update for the new timeframe:

The response for FY 2010-11 remains the same as the FY 2009-10 response: The Colorado Constitution prohibits tax increases without a vote of the people. Executive or legislative action to implement a tax increase was not, and is not, an option. If the state had not received SFSF funds there would have been dollar for dollar expenditure reductions in the state budget. Ninety seven percent of the state's general fund budget is dedicated to k-12 education, health care, human services, higher education and law and order. Additional cuts would have come from those areas.

V. Jobs Saved or Created

In its quarterly reports submitted under section 1512 of ARRA, each State provided data on, among other things, the number of jobs estimated to have been saved or created as a result of SFSF support. The Department will use the information that has been reported to determine the number of jobs that have been saved or created. For the purposes of the Initial Annual Report, the State is not required to provide any additional information on the number of jobs estimated to have been saved or created.

Jobs Reported Saved or Created in the First APR:

	Reported Jobs for 02/17/09 - 09/30/09	Reported Jobs for 10/01/09 - 12/31/09	Reported Jobs for 01/01/10 - 03/31/10	Reported Jobs for 04/01/10 - 06/30/10	Reported Jobs for 07/01/10 - 09/30/10
Education Grants	2,673.11	3,397.59	3,242.96	8,832.8	0
Government Services	524.27	1,702.57	1,681.48	1,645.07	31.77

Jobs Reported Saved or Created in the Second APR:

	Reported Jobs for 10/01/10 - 12/31/10	Reported Jobs for 01/01/11 - 03/31/11	Reported Jobs for 04/01/11 - 06/30/11	Reported Jobs for 07/01/11 - 09/30/11
Education Grants	883.47	776.15	1333.63	6.78
Government Services	248.18	194.97	88.91	47.8

VI. Progress in Advancing Education Reform

A. Reducing inequities in the distribution of highly qualified teachers:

Describe the steps that the State has taken, from October 1, 2010 through September 30, 2011, to reduce inequities in the distribution of highly qualified teachers.

Entry from previous timeframe:

Colorado's approach to ensuring that highly qualified teachers are equitably distributed is to ensure that all teachers meet the NCLB requirements. Currently, more than 99% of Colorado's core content teachers meet the highly qualified requirements. The state monitors the assignment of non-Highly Qualified teachers in Title I classrooms. In the rare cases where a non-highly qualified teacher is assigned to a Title I classroom, then the district is required to fix the assignment immediately. The state's analysis of the distribution of qualified teachers is available at: <http://www.cde.state.co.us/FedPrograms/danda/hqtdata.asp>. The state's approved Title II plan can be found at: <http://www.cde.state.co.us/FedPrograms/tii/a.asp>.

Please update for the new timeframe:

Colorado's approach to ensuring that highly qualified teachers are equitably distributed is to ensure that all teachers meet the NCLB requirements. Currently, more than 99% of Colorado's core content teachers meet the highly qualified requirements. The state monitors the assignment of non-Highly Qualified teachers in Title I classrooms. In the rare cases where a non-highly qualified teacher is assigned to a Title I classroom, then the district is required to fix the assignment immediately. The state's analysis of the distribution of qualified teachers is available at: <http://www.cde.state.co.us/FedPrograms/danda/hqtdata.asp>. The state's approved Title II plan can be found at: <http://www.cde.state.co.us/FedPrograms/tii/a.asp>. The equitable distribution data is also displayed on SchoolView.org under the staff tab. Districts are expected to analyze their data at least annually. The analysis has been incorporated into districts' improvement planning process (Colorado's Unified Improvement Plan). Districts with an identified gap are expected to address the issue and leverage Title II dollars, as appropriate. The state also monitors this issue through onsite visits.

Certification of review of submission
